Owners Acknowledgements:

I understand:

- That no work on this request shall commence until I have received approval of the Architectural Committee;
- Any construction or alteration to the subject property prior to approval of the Architectural Committee is strictly prohibited. If I have
 commenced or completed any construction or alteration to the subject property and any part of this application is disapproved, I
 may be required to return the subject property to its original condition at MY OWN EXPENSE. If I refuse to do so and the HOA
 incurs any legal fees related to my construction and/or application, I will reimburse the HOA for all such legal expenses incurred.
- That any approval is contingent upon construction or alterations being completed in a neat and orderly manner;
- That there are architectural requirements covered by the Covenants and a board review process as established by the Board of Directors;
- All proposed improvements to the property must comply with city, county, state and local codes. I understand that applications for all required building permits are my responsibility. Nothing herein shall be construed as a waiver of modification of any codes. My signature indicates that these standards are met to the best of my knowledge.
- That any variation from the original application must be resubmitted for approval;
- That if approved, said alteration must be maintained per the Declaration of Covenants, Conditions and Restrictions for the HOA.
- This alteration will not detrimentally affect the proper drainage of any common areas or surrounding lots. I will be responsible at my expense to correct any drainage problems to such areas that may occur as a result of this work or alteration.
- The Builder/Applicant acknowledges and agrees that the Committee and Association assume no liability resulting from the approval or disapproval of any plans submitted. The Committee and the Association assume no liability and make no representations regarding the adequacy or quality of any submitted plans or whether such plans comply with any or all governing authority requirements. The Committee review, comments, and/or approvals do not relieve the Builder/Applicant of their responsibility and obligation to comply with the Master Declaration, Master Design Guidelines, or Subdivision Guidelines as applicable. The Builder/Applicant agrees to grant the Association accesses to property at any reasonable hour to inspect for compliance issues.
- It is the duty of the owner and the contractor employed by the owner to determine that the proposed improvement is structurally,
 mechanically and otherwise safe and that it is designed and constructed in compliance with applicable building codes, fire codes,
 other laws or regulations and sound practices. The Association, the Architectural Committee, and any employee or member
 thereof, shall not be liable in damages or otherwise because of the approval or non-approval of any improvement.

I certify that the above information is an accurate representation of the proposed improvements and that the work will conform to applicable codes, covenants and standards. I also certify that the improvements will be completed in accordance with the approved application. I understand that construction is not to begin until approval has been received from the Architectural Committee. The Architectural Committee has permission to enter the property to make inspections, as they deem necessary.
